At 6-foot, 3-inches  
tall, Harley Earl was  
an imposing figure,  
but his true stature  
lies in his towering

talent for automotive design and styling.

Over his 50-year career, he created as

well as collaborated on the most

innovative, bold, technologically

advanced cars made by General Motors.

As a titan of American auto design, the cars

he helped create are still celebrated today.

And as an enduring legacy, he inspired a generation of engineers, designers, and stylists. Veteran automotive historian David W. Temple has researched and unearthed the complete story of Harley Earl's cars, his notable design achievements, and many accolades.

Color. Automobile design stagnated during the Depression and World War II, but the number of his contributions to the automotive world in the 1950s is staggering. When the jet age hit, he fully embraced aviation design and infused it into GM cars. The Buick Y-Job and GM

Le Sabre featured many firsts in automotive design and hardware. The Y-  
Job's fender extensions trailing over the doors, disappearing headlamps, flush door handles, a metal cover over the convertible top were a few innovations.

When General Motors

needed to show off its cars and technology, Harley Earl-designed cars were the stars of the Motorama show that toured the country from 1949 to 1961. He led the team that created the 1953 Corvette, and this iconic American sports car is still going strong today. He was involved in the

as the Tri-Five Chevy.  
Harley Earl's drive  
toward bold and

spurred American car  
design during the mid-  
twentieth century. His  
distinctive designs

As soon as there

were automobiles, there was racing. The first recorded race, an over road event from Paris to Rouen, France, was organized by the French newspaper Le Petit Journal in 1894. Seeing an opportunity for a similar event, Hermann H.

what was hailed as  
the "Race of the

Evanston, Illinois, and  
back. Frank Duryea  
won in a time of 10  
hours and 23 minutes,  
of which 7 hours and

actually spent on the  
road. Race cars and
