Ladybug is so lazy that she doesn't know how to fly. She wants to find a new place to sleep and decides to ride on passing animals. But Kangaroo's pouch is too bumpy, and Crocodile's tail is too wet. When she hops onto Elephant's trunk, she gets a big surprise!

The ladybug initiates change when it is needed the most. In spite of its size, it

appears to be fearless. Its presence, often associated with luck and the enabling of love and protection against harm, is also a pest intuitively focused on its task... LADYBUG is a passionate and psychologically vigorous debate between head and heart, reality and the ideal. Cara a cara with social stigmas, cultural undercurrents, crafty rhetoric and a sober understanding of the human condition, it remains however charmingly resilient and steadfast to the sensitive truths it lives by. Unable to make one feel indifferent to what the small but mighty definition of friendship is all about.
