Jim and the Beanstalk: Briggs, Raymond: 9780698115774 ...

What if Jack wasn't the only one to climb the beanstalk? Raymond Briggs brings a new generation to an old tale with humor, math, and imagination. After discovering a beanstalk growing outside of his window one morning, Jim decides to do what any person in a similar situation would do—he climbs it. At the top he finds t

Jim and the Beanstalk book by Raymond Briggs | 7 available ...

Jim does what any self-respecting child would do...he climbs the stalk to see where it will take him. Surprise... a giant is waiting up at the top. Where Jack found a frightening, ferocious giant when he reached the top of his beanstalk, our Jim finds a toothless, elderly giant who has no hair. Things aren't going so well for our giant.

Jim and the Beanstalk - A Book And A Hug

Children's literature can be a powerful way to encourage and empower EFL students but is less commonly used in the classroom than adult literature. This text provides a comprehensive introduction to children's and young adult literature in EFL teaching. It demonstrates the complexity of children's literature and how it can encourage an active community of second language readers: with multilayered picturebooks, fairy tales, graphic novels and radical young adult fiction. It examines the opportunities of children's literature in EFL teacher education, including: the intertextuality of children's literature as a gate-opener for canonised adult literature; the rich patterning of children's literature supporting Creative Writing; the potential of interactive drama projects. Close readings of texts at the centre of contemporary literary scholarship, yet largely unknown in the EFL world, provide an invaluable guide for teacher educators and student teachers, including works by David Almond, Anthony Browne, Philip Pullman and J.K.Rowling. Introducing a range of genres and their significance for EFL teaching, this study makes an important new approach accessible for EFL teachers, student teachers and teacher educators.

This book is based on the belief that deep subject knowledge of language and literature provides a foundation for effective teaching and learning. It provides a comprehensive guide to the range of genres and characteristic features of English language fiction written for children. It will help readers to: o develop their understanding of literature within social, cultural and political reading practices o extend their knowledge of language features and conventions of different genres o develop skills in analytical and critical reading The scope of the first edition has been expanded from solely fiction to cover a range of contemporary literature, including poetry, plays and picture books. The case study material, investigative activities and practical exercises promote an active approach to learning. The second edition focuses on a range of ficton relevant to the National Curriculum for England and the National Literacy Strategy. It provides examples from a range of world literature written in English. Examples from work in translation are also included. It also addresses the requirements of the primary curriculum for ITT English. This book is essential reading for student teachers on PGCE, and undergraduate teacher education courses, and for teachers undertaking CPD in English, literacy or children's literature. It provides useful support material for language coordinators, SCITT coordinators and literacy consultants.

'In its third edition...the author has included the latest research evidence relating to children aged from nought to eight. Her writing embraces the value of play, relationships, bilingualism and multilingualism in creating a rich language and literacy environment. Developing Language and Literacy with Young Children will appeal to a wide range of readers - practitioners, students, and their tutors, as well as parents and carers' - Early Years Update 'Highly readable... Anybody working with babies and young children needs to have the knowledge that Whitehead clearly explains here' - SureStart 'One of the many excellent features of this book is the way it tackles the issue of bilingualism in early childhood' - Early Years Educator (eye) Praise for previous editions: 'Marian Whitehead forces the reader to attend to the "voice of the child against the encroachment of inappropriate curriculum demands. Her total fascination for children's language development captures the reader in an enthusiastic and informed voyage through "the most exciting and important aspect of human development - language in the early years" - Early Years 'This is an excellent read for all parents and workers with young children. The style of the book is friendly and accessible, with beautifully produced of photographs of children and indeed of their own work. Marian Whitehead is not ashamed to draw on her experiences as a grandparent, as well as highly competent theoretical researcher; she does both with competence and humour. This will prove an excellent source book for those involved in course design from childminders to university lecturers' - Child Language Teaching and Therapy Looking at the most exciting and important aspect of human development - communication and language in the early years - this accessible book gives carers, parents, teachers and other professionals who work and play with young children a confident understanding of children's communication and language development in the years from birth to age eight. The book examines the wide range of elements that are typical of all our communication and language activities: thinking, feeling, imagining, talking, listening, drawing, writing and reading. The author emphasizes the importance of children's relationships and communications with the people who care about them, spend time with them and share in the excitement of their developing languages and their investigations of literacy. Taking a holistic approach, she covers: o early communication and language o the achievements of young bilinguals o the significance of stories, narrative and language play o the emergence of literacy in homes, early years settings and classrooms. 'This highly readable guide discusses how to help babies become competent communicators...Anybody working with babies and young children needs to have the knowledge that Whitehead clearly explains here' - SureStart

Looks at the theory and practice of providing inspiring, challenging and engaging cross curricular mathematics lesson. >

This new and updated edition of Teaching Mathematics Creatively offers a range of strategies to enable trainee and practising teachers to take an innovative, playful and creative approach to maths teaching. It promotes creativity as a key element of practice and offers ideas to involve your students and develop knowledge, understanding and enjoyment. Exploring fresh approaches, this text explains the role of play in bringing mathematics alive for children and teachers alike. It identifies the power of story-telling in supporting mathematical thinking, examines cross-curricular teaching, and allows you to plan for teaching creatively. Imaginative ideas, underpinned by the latest research and theory, include: Learning maths outdoors - make more noise, make more mess or work on a larger scale Everyday maths - making sense of the numbers, patterns, shapes and measures children see around them Music and maths – the role of rhythm in learning, and music and pattern in maths Giant maths - how much food do you include on a giant shopping list? Stimulating and accessible, with contemporary and cutting-edge practice at the forefront, Teaching Mathematics Creatively includes a wealth of innovative ideas to enthuse teachers and enrich maths teaching. This book is an essential purchase for any professional who wishes to embed creative approaches to teaching in their classroom.

Child Development in Practice provides an approachable, user-friendly base from which to plan ways of working with children that are developmentally appropriate and will enable them to learn enjoyably and effectively.

The first systematic approach to the parallels between fairy-tale retellings and fairy-tale theory.

Primary maths is stereotypically loved by a few hairy oddballs, tolerated by most sane primary practitioners; loathed by many. With the right approach, however; the right mindset and sense of the impossible being achievable, maths can be moulded into the diamond in the rough of the primary curriculum. Enter Nick Tiley-Nunn: Britain's most imaginative, most exciting primary maths specialist. Over years of practice he has generated ideas about the teaching of maths that are so distinct, so far out and so utterly brilliant that any primary teacher struggling to grasp the nettle of teaching long division will emerge from communing with his ideas not just with some clichéd sense that 'maths can be fun', but that it can be brilliant, life-enhancing and truly hilarious. This book presents ideas for primary maths teaching so wildly creative and so full of the joy of life that any classroom of kids will be grateful you read it.
