"For P.I. Paul Grayhorse, there were no secrets--thanks to his special Navajo gift. He knew why U.S. Deputy Marshal Kendra Armstrong found him in the canyons of New Mexico. Reopening the case that ended his marshal career and killed his partner did more than haunt Paul; it put him in the crosshairs. Using Paul to flush out her fugitive was risky, but teaming with him was downright dangerous. In his arms, Kendra felt like a woman, with a woman's desires. But with his powers, could she hide her biggest secret--that she'd fallen for him? And that for the first time in her career, she was afraid...afraid to live without him if she couldn't get her man?"--P. [4] of cover.

As creatures from different worlds, Tesla and Lynx should never have met. The A-ones and Underdwellers don't mix in the Dome, but Tesla is no ordinary A-one. She isn't afraid to question everything. Her entire life, she had been taught that the Underdwellers lacked the basic capacity to love or understand the high moral ground of loyalty. Something in her always questioned the absolute truth of this kind of prejudicial thinking. Then, quite by accident, she witnesses something that shakes her already shaky faith in these beliefs. Captivated, she watches Lynx, an Underdweller, defend a friend-an act she was told was impossible for these brutish creatures. In that moment, she knows that she doesn't know the truth. Tesla saves Lynx from certain death and, in a moment of inspiration and fear, asks him for a favor that puts them both in danger. It's a favor that could be the undoing of the Dome itself.
