Marketing: The Core 5e by Kerin, Hartley and Rudelius continues a tradition of leading the market with contemporary, cutting-edge content presented in a conversational student-oriented style, supported by the most comprehensive, innovative, and useful supplement package available. This text and package is designed to meet the needs of a wide spectrum of faculty – from the professor who just wants a good textbook and a few key supplements, to the professor who wants a top-notch fully integrated multimedia program. Marketing: The Core utilises a unique, innovative, and effective pedagogical approach developed by the authors through the integration of their combined classroom, college, and university experiences. The elements of this approach have been the foundation for each edition of Marketing: The Core and serve as the core of the text and its supplements as they evolve and adapt to changes in student learning styles, the growth of the marketing discipline, and the development of new instructional technologies. The distinctive features of the approach are illustrated below: High Engagement Style - Easy-to-read, interactive, writing style that engages students through active learning techniques. Personalised Marketing - A vivid and accurate description of businesses, marketing professionals, and entrepreneurs – through cases, exercises, and testimonials – that allows students to personalise

marketing and identify possible career interests. Marketing Decision Making – The use of extended examples, cases, and videos involving people making marketing decisions. Integrated Technology - The use of powerful technical resources and learning solutions. Traditional and Contemporary Coverage - Comprehensive and integrated coverage of traditional and contemporary concepts. Rigorous Framework - A pedagogy based on the use of Learning Objectives, Learning Reviews, Learning Objectives Reviews, and supportive student supplements.

The classic work on the evaluation of city form. What does the city's form actually mean to the people who live there? What can the city planner do to make the city's image more vivid and memorable to the city dweller? To answer these questions, Mr. Lynch, supported by studies of Los Angeles, Boston, and Jersey City, formulates a new criterion—imageability—and shows its potential value as a guide for the building and rebuilding of cities. The wide scope of this study leads to an original and vital method for the evaluation of city form. The architect, the planner, and certainly the city dweller will all want to read this book.
