Is Into the Wild? Biography can never be truly impartial, as, even if the author could include every moment of the subject's life, rather than choosing which are most important, his method of presentation and his diction, inherently affect how the reader will feel about the subject. There is still a scale of more or less impartial, however, and Into the Wild falls on the less-impartial side, as Krakauer himself admits.

Into the Wild by Jon Krakauer is an interpretation of one devoted man's unwavering hunger for meaning in the world. In 1990, 24-year-old Emory graduate Christopher McCandless leaves society to venture into the wilderness with a goal of reaching Alaska and living on only his surroundings and sparse material resources.

With an introduction by novelist David Vann Jon Krakauer's Into the Wild examines the true story of Chris McCandless, a young man, who in 1992 walked deep into the Alaskan wilderness and whose SOS note and emaciated corpse were found four months later. Internationally bestselling author and mountaineer Jon Krakauer explores the obsession which leads some people to discover the outer limits of self, leave civilization behind and seek enlightenment through solitude and contact with nature. In 2007, Into the Wild was adapted as a critically acclaimed film, directed by Sean Penn and Emile Hirsch and Kristen Stewart.

Krakauer's page-turning bestseller explores a famed missing person mystery while unraveling the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. "Terrifying... Eloquent... A heart-rending drama of human yearning." —New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone

into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of *Into the Wild*. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, *Into the Wild* is a tour de force. The power and luminosity of Jon Krakauer's storytelling blaze through every page.

In *Reading in the Wild*, reading expert Donalyn Miller continues the conversation that began in her bestselling book, *The Book Whisperer*. While *The Book Whisperer* revealed the secrets of getting students to love reading, *Reading in the Wild*, written with reading teacher Susan Kelley, describes how to truly instill lifelong "wild" reading habits in our students. Based, in part, on survey responses from adult readers as well as students, *Reading in the Wild* offers solid advice and strategies on how to develop, encourage, and assess five key reading habits that cultivate a lifelong love of reading. Also included are strategies, lesson plans, management tools, and comprehensive lists of recommended books. Copublished with Editorial Projects in Education, publisher of *Education Week* and *Teacher* magazine, *Reading in the Wild* is packed with ideas for helping students build capacity for a lifetime of "wild" reading. "When the thrill of choice reading starts to fade, it's time to grab *Reading in the Wild*. This treasure trove of resources and management techniques will enhance and improve existing classroom systems and structures." —Cris Tovani, secondary teacher, Cherry Creek School District, Colorado, consultant, and author of *Do I Really Have to Teach Reading?* "With *Reading in the Wild*, Donalyn Miller gives educators another important book. She reminds us that creating lifelong readers goes far beyond the first step of putting good books into kids' hands." —Franki Sibberson, third-grade teacher, Dublin City Schools, Dublin, Ohio, and author of *Beyond Leveled Books* "*Reading in the Wild*, along with the now legendary *The Book Whisperer*, constitutes the complete guide to creating

astimulating literature program that also gets students excited about pleasure reading, the kind of reading that best prepares students for understanding demanding academic texts. In other words, Donalyn Miller has solved one of the central problems in language education." —Stephen Krashen, professor emeritus, University of Southern California

Winner of Poetry Magazine's Levinson Prize, an illuminating collection from the middle of his career, Raymond Carver's poems "function as distilled, heightened versions of his stories, offering us fugitive glimpses of ordinary lives on the edge" (Michiko Kakutani, *The New York Times*).

This book is set in central Indian forests, largely in Madhya Pradesh—the torch bearer of wildlife management in our country—that also has relevant reference to the forests of Vidarbha region of the neighbouring Maharashtra. The book has arrived as a breath of fresh air and candour at a time when some of the wild animals, specifically the leopards and tigers, in the present context are being viewed by the ill-informed and uncaring section of the society as inimical to the lives of people. While incidents of strife are usually reported from rural India, some of the urban sprawls that fail to rein in their poorly planned expansion across the existing forested tracts on their doorstep, which has been the case of the MP state capital Bhopal, are no exception. While painting the lives of wild creatures with delicate strokes of an artist's brush, the pages, without breaking stride, deal with men who have wrested as large slices of the natural areas as possible from being lost to the relentless march of 'development,' encroachments, and other human activities. There are lessons in the highest levels of conservation leadership without hiding the soft belly of the onerous tasks. There is narrative of large predators in trouble—leopards and tigers; of the local extinction of the large-hearted gentleman, the tiger—so christened by the redoubtable Jim Corbett—in Panna Tiger Reserve a decade ago and the tiger's remarkable resurrection in the very same area. Of daring experiments, investigations, innovations, and establishment of field-based skills, all carried to their logical conclusion—success. The reader is placed right in the middle of the action! What is more, there is no hiding of problems and some failures.
