completed, the light may not reset itself automatically. To turn the light off, you must perform a manual reset of your Ford's computer system.

~~How to Reset a Service Engine Light on a Ford | It Still Runs~~

Your Ford F150's service engine soon light is there to let you know that some sort of problem has been detected with the vehicle. Any vehicles made in 1996 or newer use OBDII codes, which can easily be retrieved from a good code scanner. A flashing service engine soon light is telling you that something needs immediate attention.

~~Ford F150: Service Engine Soon Light → Diagnosis ...~~

Service Engine Soon Light Meaning. If the 'Service Engine Soon' light comes on, it means that there is a minor problem with the electronics or the engine of your car. Some manufacturers use them as a check engine light for minor problems. It could also mean that it is time for a scheduled service, such as oil or spark plug replacement. Some manufacturers only have one indicator for both scheduled service and engine problems.

~~Service Engine Soon Light [How to fix it?] Meaning & Causes~~

If the Service Engine Soon indicator light stays lit after you've started the engine, the On Board Diagnostics system (OBD) has detected a malfunction of the vehicle emissions control system. Contact your authorized dealer as soon as possible. If indicator light is blinking, an engine misfire may be occurring, which could damage your catalytic converter.
