You Should Come With Me Now by M. John Harrison - Scott Manley Hadley When any venture exists with the primary motivation of love, rather than money, the person making that venture may as well take risks. This applies, most obviously, to romance, but it also explains quite succinctly why indie presses are thriving at present.

M. John Harrison is a cartographer of the liminal. His work sits at the boundaries between genres - horror and science fiction, fantasy and travel writing - just as his characters occupy the no man's land between the spatial and the spiritual. Here, in his first collection of short fiction for over 15 years, we see the master of the New Wave present unsettling visions of contemporary urban Britain, as well as supernatural parodies of the wider, political landscape. From gelatinous aliens taking over the world's financial capitals, to the middle-aged man escaping the pressures of fatherhood by going missing in his own house... these are weird stories for weird times. 'M. John Harrison's slippery, subversive stories mix the eerie and familiar into beguiling, alarming marvels. No one writes quite like him; no one I can think of writes such flawless sentences, or uses them to such disorientating effect.' - Olivia Laing, author of *The Lonely City* 'These stories map a rediscovered fictional hinterland, one tucked behind the glossier edifices of modernity and genre with views down alleyways into pubs and flats where Patrick Hamilton glares balefully at J. G. Ballard.' - Will Eaves, author of *This is Paradise* 'M. John Harrison moves elegantly, passionately, from genre to genre, his prose lucent and wise, his stories published as SF or as fantasy, as horror or as mainstream fiction. In each playing field, he wins awards, and makes it look so easy. His prose is deceptively simple, each word considered and placed where it can sink deepest and do the most damage.' - Neil Gaiman, author of *American Gods* 'With an austere and deeply moving humanism, M. John Harrison proves what only those crippled by respectability still doubt - that science fiction can be literature, of the very greatest kind.' - China Miéville, author of *Perdido Street Station*

prepare me for the high maintenance, rich girl I'm hired to protect. She's got a smart mouth, is hell-bent on pushing my buttons, and doesn't take the threats against her seriously. And despite the nightmares that plague her dreams, or the fact that I'm the only one who knows about them, I'm not there to befriend her. I'm there to protect her...no matter how much she intrigues me. Jabs will be exchanged, glares will become the norm, jealousy will rear its ugly head, and sparks...well those damn things will inevitably fly. But will it all come with a dangerous price?

THE MARQUIS OF KINGSBURY. When Mr. Lionel Trafford went into Parliament for the Borough of Wednesbury as an advanced Radical, it nearly broke the heart of his uncle, the old Marquis of Kingsbury. Among Tories of his day the Marquis had been hyper-Tory, -as were his friends, the Duke of Newcastle, who thought that a man should be allowed to do what he liked with his own, and the Marquis of Londonderry, who, when some such falling-off in the family politics came near him, spoke with indignation of the family treasure

which had been expended in defending the family seat. Wednesbury had never been the Marquis's own; but his nephew was so in a peculiar sense. His nephew was necessarily his heir,—the future Marquis,—and the old Marquis never again, politically, held up his head. He was an old man when this occurred, and luckily for him he did not live to see the worse things which came afterwards. The Member for Wednesbury became Marquis and owner of the large family property, but still he kept his politics. He was a Radical Marquis, wedded to all popular measures, not ashamed of his Charter days, and still clamorous for further Parliamentary reform, although it was regularly noted in Dod that the Marquis of Kingsbury was supposed to have strong influence in the Borough of Edgeware. It was so strong that both he and his uncle had put in whom they pleased. His uncle had declined to put him in because of his renegade theories, but he revenged himself by giving the seat to a glib-mouthed tailor, who, to tell the truth, had not done much credit to his choice.

A founder of contemporary social science, Max Weber was born in Germany in 1864. At his death 56 years later, he was nationally known for his scholarly and political writings, but it was the international reception of his oeuvre over the last forty years that has made him world-famous. "The Protestant Ethic and the Spirit of Capitalism," "The Economic Ethics of the World Religions" and his magnum opus, "Economy and Society," with its treatment of the relations of economics, politics, law and religion, belong to the great achievements of 20th-century social science. The groundwork for the posthumous Weber reception was laid by Weber's widow Marianne, a well-known feminist writer, who followed up her edition of his collected works with one of the greatest biographies in a generation that produced many important accounts of itself. Although unavailable in English until a decade ago, the importance of Marianne Weber's 1926 work had been widely understood. Sociologist Robert A. Nisbet called it "a moving and deeply felt biographical memoir." Historian Gerhard Masur cited the book as "the foundation of all further inquiries into Max Weber's life and influence." Beginning with Max's ancestry and early years, Marianne Weber guides us through his life as student, young lawyer, scholar and political writer, quoting liberally from his voluminous correspondence. Her account of his nervous breakdown after 1897, which curtailed his academic career but ultimately strengthened his creative energies, provides deep insight into some of the personal tensions that troubled him to the end. In addition to her perceptive personal and intellectual life before the First World War, describing many scholars, social reformers, politicians and literary figures within and beyond the famous Heidelberg circle of the Webers. The new introduction by Guenther Roth situates Marianne Weber's own role in the contemporary setting and discusses the current state of Weber research and of the international Weber reception. Harry Zohn is chairman and professor of the Department of Germanic and Slavic Languages at Brandeis University. He is the editor and translator of a dozen books, including *The World is a Comedy*. Guenther Roth is professor of sociology at the University of Washington. He co-edited *Weber's Economy and Society* and co-authored *Scholarship and Partisanship* (with Reinhard Bendix) and *Max Weber's Vision of History* (with Wolfgang Schluchter).

"Paulist Press deserves credit for adding this new dimension to interfaith dialogue." The Jewish Spectator In this remarkable volume in the Classics of Western Spirituality(TM) are the mystical autobiographies—unusual in themselves for the Jewish tradition—of two influential Jewish thinkers, Rabbi Hayyim Vital and Rabbi Yizhak Isaac Safrin of Komarno. Now translated for the first time in English, these texts will capture the attention of historians, theologians, and anyone studying Judaism. Rabbi Hayyim Vital (1542–1620) was the foremost disciple of R. Isaac Luria, one of the most important mystics in 16th century Judaism and founder of the major school of mysticism known as Lurianic kabbalah. Vital was the most influential transmitter of Luria's teachings, and the author of a full-fledged mystical autobiography called *The Book of Visions*. Vital saw himself as the reincarnation of many of the important figures in Jewish history associated with messianic hopes and expectations. The second text in this volume, *The Book of Secrets*, is by Rabbi Yizak Isaac Safrim of Komarno (1806–1874), an important Hasidic master. Like Vital, he saw himself as a potential messianic figure who had direct access to the mysteries of heaven. *The Book of Secrets* is divided into two parts. The first part, *The Book of Visions*, modeled on Vital's work, consists of incidents in his life and visionary experiences. The second part, *the Deeds of the Lord*, contains stories about the Baal Shem Tov, the founder of Hasidism.

In 1724, Thomas Newton is cast out of his home by his aristocratic father. Desperate to make a new life for himself, he heads to London. Through a string of intimate encounters, he enters the underground world of male-male desire. Soon enough, Thomas meets Margaret Clap, who runs one of the male brothels. Without a child of her own, "Mother Clap" finds herself drawn to Thomas. She offers him a place in her house, but also a place in her heart. Thomas's homecoming is too brief. The Society for the Reformation of Manners, a group of Christian zealots, begins raiding the Molly houses. They plan to force the arrest, conviction, and execution of any man guilty of "crimes against nature." When Margaret Clap's house is raided and Margaret herself is arrested, Thomas has to make the most difficult decision of his still young life, one that could destroy everyone around him in a desperate effort to save them.
